

- It may be used with all common types of asymmetric sails: (asymmetric spinnakers, gennakers, mps).
- The sail does not need any modifications.
- The sail does not have to be designed and built to fit RollGen.
- The use of RollGen does not affect the sailing performance efficiency of the sail.
- Once the sail has been unfurled, it may be used and adjusted freely.

- The furling and unfurling operation can be carried out comfortably and safely from the cockpit.
- The furling operation may be carried out at a moment notice, because RollGen is always in a working position.
- Once the sail has been furled in, RollGen may be left in position, and you may take it down later.
- It can be fitted in a few minutes after having cut the stay to measure, and the asymmetric sail may be quickly installed by using the shackles supplied.

HOW TO PREPARE IT...

- Bring on deck the bag containing RollGen and the sail furled around it.
- Connect the furling drum to the bowsprit or on deck with the shackle supplied, or by using a snap shackle, or by connecting it to the tack line.
- Connect the halyard to the top swivel and raise it..

- Pull the halyard in order to keep the RollGen stay under tension. This will prevent it from touching the forestay in order to allow the sail to be furled and unfurled without impediments.
- The endless line has to be laid towards the stern of the boat to control the system from the cockpit.
- Now, the asymmetric sail is ready for sailing and may be used with one or two sheets as usual.

HOW TO USE IT...

- Unfurl the sail: pull the sheet.
- Furl the sail: release the sheet and pull the endless line.
- When the sail is completely furled in, we suggest you partially wrap the sheets around it in order to stow it away easily.
- Once the sail is furled in, you may take down the halyard and put everything inside the sail's original bag.
- For a better performance of RollGen, we recommend using a bowsprit.

When the sail is unrolled RollGen does not interfere with any manoeuvres.

The operation can be carried out in 30 seconds!!!
